

5 Simple Steps to Switch from Zipwhip in Less Than 24 Hours

You know that the Zipwhip platform is shutting down soon, and you need a new platform that you can switch to without a huge hassle.

We'll walk you through 5 simple steps of how to easily switch to Mobile Text Alerts from Zipwhip in less than 24 hours.

1 Create a Free Account with Mobile Text Alerts

Creating a free trial account with Mobile Text Alerts takes less than 30 seconds and there's no commitment or credit card required.

Instant 14-Day Free Trial

2 Decide How Many Messages You Want to Send

Our pricing structure is simple and is based on how many messages you'd like to send on a monthly basis (no contracts). You can [view a full list of plans here](#).

3 Export Your Contacts From Zipwhip

Copy the contacts from your Zipwhip database and paste them into a spreadsheet software such as Google Sheets or Microsoft Excel. (Alternatively, you can contact Zipwhip support to place an export request for your data.)

Then you can easily drag and drop your spreadsheet file into your Mobile Text Alerts account to import the contacts to your new platform. [See this tutorial for more details](#).

4 Submit the Phone Number You'd Like to Send From (Optional)

If you'd like to continue sending texts from the same phone number you're currently using on Zipwhip, simply provide your phone number to a [Mobile Text Alerts representative](#) and we can port the number to our platform.

5 Schedule a Product Demo

At any point in the process, you can [schedule a demo](#) with one of our experts to get a full walkthrough of the product. They can answer any questions you may have about getting started.

We understand that transitioning to a new product can be intimidating and frustrating. We are committed to making your switch away from Zipwhip as smooth and seamless as possible! Don't hesitate to let us know if you have any questions.
